Title	Description/Comments
<b>WDP:</b> 2020-21 school year now live	<p>WISEdata has been updated for the 2020-21 school year and the 2020-21 data collection is now live. If your vendor has completed WISEdata integration testing for the 2020-21 school year and their production software updates are complete, you can configure your SIS to start sending data for the 2020-21 school year.</p> <p>For a quick summary of what's new in WISEdata for 2020-21, refer to the <a href="#">What's New in WISEdata</a> document.</p>
<b>WDP:</b> Validation rule 6493 no longer applies to non-primary enrollments	<p><a href="#">Validation rule 6493</a> no longer applies to non-primary enrollments. This rule checks whether a student with a high school completion (HSC) exit type has an associated diploma record in WISEdata. Because non-primary enrollments do not require exit types in WISEdata, this rule no longer applies to those enrollments.</p>
<b>WDP:</b> Bug Fix - Broken link to WISEdash	<p>Previously, the Login to WISEdash link on the Data Quality page was broken. This issue is now fixed.</p>
