

WISEdata Release Notes: 7/28/20

Title	Description/Comments
<p>WDP: Digital equity data elements now appear in WISEdata Portal</p>	<p>Data elements for the new digital equity collection now appear on the Student Details page when your SIS begins to send them through the WISEdata API. The new data elements include:</p> <ul style="list-style-type: none"> ● Internet Access in Residence ● Internet Access Type in Residence ● Internet Performance ● Digital Device ● Device Access
<p>WDP: New Blended Learning option for Medium of Instruction type</p>	<p>You can now record a student's Medium of Instruction Type as Blended Learning to report that a student receives instruction both in an online virtual classroom and in-person at a brick-and-mortar location away from home.</p>
<p>WISEadmin Portal: Nested panels now have different colored headers</p>	<p>Panels nested under another panel in WISEadmin Portal now have blue headers to help them visually stand out from their parent panels.</p>
<p>WDP: Validation rule 6769 now applies to Ed-Fi API v3 data</p>	<p>We've updated validation rule 6769 so that it now applies to data sent through the Ed-Fi API v3, which started in the 2019-20 school year. As part of this update, this validation rule now shows an error instead of a warning if its criteria are met.</p>
<p>WDP: Bug Fix - Validation rule 6576 now shows the appropriate school on the Validation Message panel</p>	<p>Previously, validation rule 6576 showed the submitting school instead of the expected transfer school on the Validation Message panel. This issue is now fixed.</p>

WDP: Bug Fix - Validation Message grid no longer times out

Previously, a performance issue could cause the Validation Message grid to time out instead of showing data. This issue is now fixed.
