

WISEdata Release Notes: 8/10/21

Title	Description/Comments
WDP: Data quality alerts now separated into district-level and school-level alerts for public districts	<p>The Alerts page in WISEdata Portal now shows district-wide data quality alerts and school-level data quality alerts in separate groupings. Users can expand school-level alerts by clicking on the arrow icon next to each alert to see affected schools and acknowledge the alert for each school.</p> <p>For more information about the WISEdata Portal Alerts page, refer to the WISEdata Portal Alerts Mini Tutorial.</p>
WDP: Bug Fix - Timestamps in WISEdata Portal are now in CST	<p>Previously, timestamps across WISEdata Portal did not appear in CST. This issue is now fixed.</p>
