

**Release Notes for 3/8/2016 WISEid/WISEstaff Production Release (WISEid Core Apps Sprint 104)**

Feature Title	Notes
WISEid: Make Race/Ethnicity a required field for Create/Edit Record	Put required indicators on Person Create for 2 part Race/Ethnicity and Local Person ID fields. Already were required, but it was not clear on the screen.
WISEid: Redact Choice, DOC & DHS Local Person ID & Local Student IDs	For Choice schools, DOC and DHS only those agencies can see their own Local Person IDs anymore for confidentiality reasons.
WISEid: Resolve Potential Matches - Result List - Abbreviate Race/Eth	On Potential Match UI screen we use the race/ethnicity code and allow hover over to see which race/ethnicities make up that code. This is to conserve on space.
STAFF: Performance of Clear Non-Required Data	Make Clear Non-Required Data much faster.
WISEid: Modify Person Change History with 2016 Public Release - New Data Elements for Audit	Add birth outside US, Birth city, birth state, birth county, birth country to Person Change History. Only effective for summer release not visible to end users yet.
STAFF: Change Search Edit description	Added text to Person Search Edit screen "Search for a person to either view or edit their staff information. If you want edit person legal name, birthdate, gender, entity ID, race ethnic category attributes please contact DPI CST. When searching, first enter ALL of first name, last name, birth date and gender. Excluding birth date or gender will lead to a lower match scores and may not return the WISEid which should be carried forward for the person."
WISEid: Match Review & Resolve Duplicates / Merge Records - Update Title Field to Other Names	On Match Review & Resolve Duplicates UI change Names to Other Names.

Staff: Edit Staff UI for 4034 Errors	4034 No Entity ID errors were showing up in both Errors and Info messages of UI when editing a person. Fixed so it only shows up in the Errors.
WISEstaff: FTE summary report modifications	Made Total by Gender to just Total. Inserted a grand total in bottom row last column cell.
WISEstaff 2014-2015 and 2015-2016: Salary Report changes	Remove zeros from Salary Report where they should blank.
WISEstaff: Add 4 digit agency code to Name of agency at the top of the screen	Added 4 digit agency code of active agency at top of the UI screen.
WISEid: Upload 2016 Public Release - New Data Element Birth Outside US	New data elements for summer release. Not visible until then. Birth Outside Us required question for students.
WISEid: Update Person Upload Errors Fields when Public Release Toggle Enabled	Updated Person Upload Errors for new data elements for summer release. Not visible until then.
STAFF: hotfix Bug Salary Report contract issues	Salary Report Contracts pulling Highest Degree from previous year or other agencies.
STAFF: hotfix Bug Salary Report 14-15 filter broken	Salary Report the 14-15 filter was broken. You can now see this years data through the filter.
STAFF: Salary Report Summarize by Position Code	On Salary Report when a person had multiple assignments in the same position code they were not being summarized as one position code. The same position code was repeating for each assignment. This is fixed.
WISEid: Review Matches   Potential Matches Found UI & Resolve Potential Matches UI	UI WISEid / Review Matches: Update Race column to reflect Race/Ethnicity. UI WISEid / Resolve Potential Matches - Does this person match an existing record section update column Race Key to reflect Race/Ethnicity.
STAFF: Hotfix Validation Assignment 53-0808 NCLB required when it is not	NCLB validation for 53-0808 and other assignments was not working correctly.

	This create a lot of incorrect validation messages.
STAFF: Remove Salary Report Totals	On the Salary Report removed the Totals at bottom of the report, because they were not accurate because multiple assignments for a person would create false totals.
