

**Release Notes for 4/21/2015 WISEid Production Release (WISEid Core Apps Sprint 81)**

Feature Title	Notes
STAFF: Get Historical Assignment Download Grades from Edstix and use in download file	Populated correct grade levels in the Historical Assignment Download. Previously grade levels didn't convert correctly.
Historical Person Upload	Fixed data issues with the Historical Person Upload due incorrect Entity IDs and uploading of WISEids. Deployed 4/13/15. WISEids before that date in the Historical Person Downloads may not be correct.
STAFF: null Entity ID used in matching for search	Changes to allow Entity ID searches caused issues with matching results.
STAFF: Make Historical Downloads work for MKE district without timing out	Historical Person Download timed out on largest districts. Refactored for performance.
TAFF: Historical Assignment Local Experience and Total Experience	Historical Assignment Local Experience and Total Experience in upload not being divided by 10 to convert from 3 digit format to decimal.
STAFF: TEPDL Service to grab snapshot data	Largest piece of the TEPDL Audit integration. Ignore for now.
STAFF: Settings tab add indicator for district ready for audit	Button on the Manage Staff Data to enable Audit Review. Ignore for now. Agency Admin only have access.
STAFF: Assignment Working School - allow previous year codes	Changed validation to allow last years assignment working school codes to upload into system to support upload of last years data. District will have to resolve in the UI for working schools not valid in the current year.
STAFF: Hide Historical Assignment & Contract buttons	Historical Assignment and Contracts had problems so we hid them

	temporarily.
WISEid: School Field Needed to complete decode for Act As and Working Agencies	Partially fixed issues around WSD and WCBVI.
STAFF: Historical Person Download remove ELO data	If data was missing and we had matches in ELO were substituting ELO data for missing birthdates and names. This caused confusion when the Entity IDs were incorrect so we removed.
STAFF: Validation Assignments	Validations blocking duplicate assignments in uploads and UI.
STAFF: Create Audit snapshots	Part of work needed for TEPDL Audit Service interaction.
WISEid: BUG Person upload faults when gender wrong format	Previously if you uploaded "Male" or "Female" or any other value other than "F" or "M" it caused a Fault for entire upload. Now it generates an error as it should.
STAFF: Validate Staff Data modifications	Alter Validate Staff Data based on feedback from User Group.
STAFF: Validate Staff Downloads	Create a downloader to CSV/Excel of Staff Validation with Excel clickable links.
STAFF: Bug Contract Validation Message without Contract Upload	Contract Race Key and Birth Year were displaying validation messages when they should not.
WISEid: Bug Some Merges not working	Some requested merges were not resolvable by DPI. Create fix for this and DPI CSR will be able to resolve the merges after the next deploy.
WISEid: Verify ActAsAnyAgency gives all users access to Act as Another Agency	DPI CSRs not able to act as other agencies. This is fixed in this deploy.
STAFF: Security Modification - Agency Data Entry give Contact update access	Expended users who have access to the Contact updates.

<p>STAFF: Local and Total experience - one decimal place and must be half years</p>	<p>Limiting Local and Total Experience to one decimal place and half years in UI.</p>
<p>STAFF: Bug - Search by only Local Person ID broken</p>	<p>Fixed search by Local Person ID broken on Person Search.</p>
<p>STAFF: BUG: Contract Highest Degree not updating - again</p>	<p>If you tried to update through upload the Contract Highest Degree it would not take effect. Now update takes effect.</p>
<p>Staff: Validation: WISEid to Name Validation for Contract Upload</p>	<p>If your Contract Upload First and Last names do not match one of the WISEids legal names or aliases this creates an upload error and must be corrected.</p>
<p>STAFF: Bug: Contract Errors in Results error if clicked on when uploading a null WISEid</p>	<p>If you uploaded a null WISEid to the contract upload it resulted in page crash. Now it just errors the rows as it should.</p>
<p>Staff: BUG URGENT- Contract validation of Hiring LEA</p>	<p>If the Hiring LEA in your upload file doesn't match the select Hiring Agency in the application the errors should show in the Contract Upload Results. Only one record of many was showing the error. This has been resolved so all errors show up highlighted.</p>
