Release Notes for 5/5/2015 WISEid Production Release (WISEid Core Apps Sprint 83)

Feature Title	Notes
STAFF: Agency list - Correct Wisconsin School for the Deaf and WSBVI	Corrected system so that Wisconsin School for the Deaf and WSBVI have correct codes and work as other agencies.
STAFF: Dashboard audit snapshot indicator	Created dashboard home page message when agency audit snapshot is due and has not yet been completed. Goes away when agency has a valid snapshot for the current snapshot deadline time range.
STAFF: Audit Snapshot process - send snapshot ready to TEPDL Service	Last piece of integration with TEPDL audit service that tells TEPDL every time a successful audit snapshot has been completed by an agency. Allows TEPDL to select a specific snapshot if multiple snapshots are made if there is a valid reason not to use the most recent.
WISEStaff: Message performance issue with validating MKE	Improved performance issues for the validation messages for large districts.
STAFF: Validation- Gender	A Warning validation message will be generated if the gender in the Contract upload is different than the WISEid person.
STAFF: UI Default Values for Subcontracted individuals	When WI Dept of Health Service and WI Dept of Correction created a new assignment record in the UI the subcontracted to Yes. If other agency it will default to No.
STAFF: Delete Assignments Button	On Manage Staff Date created a button to "Delete Staff Assignments" to delete all assignments for the select agency.

STAFF: Mass Acknowledge Validation Warnings Created the ability on the Validate Staff Data page to mass acknowledge Warnings by code. STAFF: Validation- Working School - CESAs (01) STAFF: Historical Person Download - remove invalid Entity IDs STAFF: Historical Person Download - remove invalid Entity IDs Removed Entity IDs (File Numbers) that didn't get imported to ELO. These non-imported File Numbers are not considered valid. If person ever files for a licenses they will get a new Entity ID. STAFF: HOTFIX: Modify CopyEloEntityIds to include Aliases in matching When person has a contract for the given year our automatch SQL job will populate overnight the Entity ID if there is one match from ELO on first, last name and birthdate. We have expanded this job to match on WISEid aliases as well as legal names. WISEid Person: User Panel for Match Review with Customer Service contact info WISEid: HOTFIX: BUG: Person List by Local Person ID broken WISEid: HOTFIX: BUG: Person List by Local Person ID broken WISEid: HOTFIX: BUG: Person List by Local Person ID broken WISEid: Hotfix: Bug: Person List by Local Person ID was broken. This should be fixed for all districts. STAFF: Download of Assignment Upload Errors Added ability to download all assignment upload records and also errors when applicable. WISEid: Resolve Duplicates display more info Added more info about each person		
STAFF: Historical Person Download - remove invalid Entity IDs Removed Entity IDs (File Numbers) that didn't get imported to ELO. These non-imported File Numbers are not considered valid. If person ever files for a licenses they will get a new Entity ID. STAFF: Download of Contract Upload Errors Added ability to download all Contract upload records and also errors when applicable.		that didn't get imported to ELO. These non-imported File Numbers are not considered valid. If person ever files for a licenses they will get a new
Customer Service contact info Dulling potential match review we have added info on hot to submit a DPI Help Desk support ticket when needing to change legal name, race ethnicity or birthdates of existing WISEid persons (under edit embargo until cross district communication module is completed). WISEid: HOTFIX: BUG: Person List by Local Person ID broken In some cases the Person List by Local Person ID was broken. This should be fixed for all districts. STAFF: Download of Assignment Upload Errors Added ability to download all assignment upload records and also errors when applicable. STAFF: Download of Contract Upload Errors Added ability to download all Contract upload records and also errors when applicable.		given year our automatch SQL job will populate overnight the Entity ID if there is one match from ELO on first. last name and birthdate. We have expanded this job to match on WISEid
broken Local Person ID was broken. This should be fixed for all districts. STAFF: Download of Assignment Upload Errors Added ability to download all assignment upload records and also errors when applicable. STAFF: Download of Contract Upload Errors Added ability to download all Contract upload records and also errors when applicable.		have added info on hot to submit a DPI Help Desk support ticket when needing to change legal name, race ethnicity or birthdates of existing WISEid persons (under edit embargo until cross district communication
STAFF: Download of Contract Upload Errors Added ability to download all assignment upload records and also errors when applicable. Added ability to download all Contract upload records and also errors when applicable.	•	Local Person ID was broken. This
upload records and also errors when applicable.	STAFF: Download of Assignment Upload Errors	assignment upload records and also
WISEid: Resolve Duplicates display more info Added more info about each person	STAFF: Download of Contract Upload Errors	upload records and also errors when
	WISEid: Resolve Duplicates display more info	Added more info about each person

	when DPI CSRs resolve potential duplicate WISEid persons. Included aliases, all Local Person IDs and Entity ID to make better resolution decisions.
Staff: Move Contract local and total experience whole or half-year validations from 1st level to 2nd level validations.	Contract Local and Total Experience fields were part of first level validation errors. This has been removed and instead users can resolve issues after their data is uploaded through validation error messages.
STAFF: HOTFIX : One Time SQL Remove Entity IDs that are not in ELO in production	Removed Entity IDs (File Numbers) that didn't get imported to ELO. These non-imported File Numbers are not considered valid. If person ever files for a licenses they will get a new Entity ID.
STAFF: Info Validation Messages Expand by default	On Contract and Assignment UI the info messages were not expanded by default. We have expanded them as the default so they will be more noticeable.
STAFF: HOTFIX: Historical Person List by Local Person ID	Released the Historical Person List by Local Person ID. However, because of the design the multiple agencies have the same staff in the their files only the last upload agency Local Person ID is saved. If you use to upload into your vendor system you must validate/correct the Local Person IDs. Other option is to do normal Person Upload of all staff (both historical and new) and do match reviews.
STAFF: HOTFIX : - Assg UI Working school.	Schools that should allow 0000 district wide assignments were incorrectly generating validation assignment UI messages.

STAFF: HOTFIX : Assg UI Position 51 -0000	For assignments of 51 Principals we were incorrectly giving users "Missing Grades" validation messages. This has been corrected.
STAFF: HOTFIX : Upload records with many Errors causing Uploads to Fail	When Uploads had many errors the Upload to fail. We have expanded the system's capacity to handle longer messages.
WISEStaff: Saving person/assignment/contract clears other person validation messages	Cross agency validations issues were resolved.
STAFF: A new NCLB number of classes question needs to be added for self contained elementary classes.	NCLB UI question for self contained elementary classes. Not in the Assignment Upload this year as specs are finalized.
STAFF: Resolve Invalid Validation Data Function	Included button on Validate Staff Data called Resolve Invalid Data that will allow you to remove from the system any invalid data and resulting validation messages for your agency.
STAFF: Invalid Assignment Position and Areas in Assignment Upload	Changed system so that Assignment position and area combinations from last year are not stopped as first level upload errors. Allows correction in the UI to combinations valid for the current year.
Staff: Historical DOC and DHS files have no data.	Historical downloads not working for DOC and DHS. We have fixed.
