Release Notes for 9/24/2015 WISEid Production Release (WISEid Core Apps Sprint 93.

Feature Title	Notes
WISEid: Add validation to Duplicate Reporting	Person > Report Duplicates now has blocks when someone tries to report a set of WISEids that have already been reported once as potential duplicates. Message will say: 1) if it was reported and found not to be a duplicate 2) if the IDs have already merged 3) if still awaiting resolution.
WISEid: Capture changes to Entity ID in Person change history	WISEid tab > Person > (Search for person) > Person Change History - Added Staff Changes tab to the Person Audit data so the updated history of the ELO Entity ID changes.
WISEid: Separate Person and Staff specific links R / P - File Upload	Upload links on both WISEstaff and WISEid are now separate and keep you on your currently selected tab.
STAFF: Staff missing Entity ID on WISEstaff homepage	On the WISEstaff tab homepage if there are currently staff with Assignments that require a license a message is displayed on the dashboard and a count of how many such persons exist.
WISEid: Person DPI only Toggle Part 2	Finishing up admin feature so we can turn off WISEid tab access with message to end users if there is a reason to take to lock it down.
WISEid/WISEstaff: Download of Upload Files Part 2 - make it work for contracts and assignments and fix person	On the results screen we finish security work needed to make the download of the original upload file possible.
STAFF: Add Semicolon to grades downloads	All downloads in the system for the Assignment Grades column will use semicolons as a seperate between grade levels so that downloads can be used as Upload files.

STAFF: Assignment UI issues remaining after Toggle to 2015-16	Some issues with rolling to 2016 for assignments have been fixed.
STAFF: Update Contact Info Annualize and Add Annual Verification	WISEstaff > Update Contact Info now requires annual verification checkbox even if none of the WISEstaff contracts have changed for the year.
STAFF: Bug Local experience >999 user message 4310	If Contract Local Experience was uploaded over 999 it would fault the file upload. This has been fixed.
STAFF: Validation Total Experience valid range	No validation of the Total Experience was in place. Validation rules have been put in place for this field.
STAFF: Bug - Messages/Assgs remain after year is rolled forward	Finish annualization of validation messages.
WISEid: BUG: Working School Inactive Schools showing up in assignment UI	Inactive schools were showing up in the Assignment UI for Working Schools.
WISEid: Separate Person and Staff specific link R / P - Results Page	The WISEid and the WISEstaff tab Search/Edit pages have been separated. No longer will you automatically switch between tabs when you click on Search/Edit.
STAFF: Bug - Handle Merge when Record is being modified	Some edits were possible to a merged WISEid person that is no longer active if tab is open by an user. No longer will edits be possible after the WISEid has been deactivated.
STAFF: Bug - NCLB field restrictions vary	The correct valid range for NCLB Assignment fields is 0 to 40 classes. Previously messages said 0 to 10.
STAFF: Historical Assignments and Contracts School Year make active year	Historical Assignment and Contract downloads had year set to 2015 when we toggled the system to 2016. User will need this year set to 2016 in the data so they can reupload the file

	without changing the year in their file.
WISEid: Bug WSLS Import & Copy broken	The update of data from WSLS to WISEid was broken. This has been fixed.
