

**Release Notes for 11/10/2015 WISEid/WISEstaff Production Release (WISEid Core Apps Sprint 96 + Hotfixes)**

Feature Title	Notes
WISEid: Birth Year Extrapolation	In Person search user can now enter 2 digit years and have system translate to the correct year depending on if it's before or after.
WISEid: Add recommendation to top of search screen.	Added message to person search screen: 'When searching, first enter ALL of first name, last name, birthdate and gender. Excluding birth date or gender will lead to a lower match scores and may not return the WISEid which should be carried forward for the person.'
WISEid: Separate Person and Staff specific link R / P - Download Transactions	Complete tab move/separation of Download Transactions to the WISEid tab
WISEid: Separate Person and Staff specific links R / P - Person Download	Complete tab move/separation of Person Download
WISEid: Add local person id type to Agency Admin delete request	Require type of Staff or Student to Local Person IDs
WISEid: Separate Person and Staff specific links R / P - Settings (Admin Menu)	Remove ability to turn off requirement for Local Person IDs. Local Person IDs will be required for all new persons or edits. Remove Settings from under Admin Menu.
WISEid: Separate Person and Staff specific link R / P - DPI Admin Tab	Created new WISEid DPI Administration tab - admin functions for DPI use have been moved to its own tab. This tab is not viewable by non-DPI users.
WISEid: Separate Person and Staff specific links R / P - Staff list	Security changes to edit and view of the Staff List.

<p>WISEid: Separate Person and Staff specific links R / P - Manage Staff Data</p>	<p>Security changes to use and viewability of the Manage Staff Data page. Historical downloads now Copy Forward Files. Dropdowns to choose different years of the Copy Forward Assignments &amp; Contracts so users who didn't report data last year can access data from 2 years ago.</p>
<p>WISEid: Separate Person and Staff specific links R / P - Validate Staff Data</p>	<p>Security changes to edit and view of the Validate Staff Data</p>
<p>WISEid: Separate Person and Staff specific links R / P - Sign off or Certification</p>	<p>Security changes to edit and view of the Sign off or Certification</p>
<p>STAFF: Bug Copy Forward optional fields from last year not in download file</p>	<p>The Copy Forward Assignment Download was missing data for the Local ID, Local Assignment Title and Local Use fields. They are now included.</p>
<p>WISEstaff: Correct Staff list pagination and navigation back.</p>	<p>On the Staff List when you click the edit box for a person that person now opens up in a new tab. User can make changes to person and then close the persons tab to get back to the main tab with the Staff List still loaded.</p>
<p>WISEstaff: HOTFIX - Validations are timing out for Waukesha</p>	<p>Validations on Validate Staff Data where having performance issues. Improved performance to handle increased data from larger districts.</p>
<p>WISEid/WISEstaff: Hotfix Refactor reading specialist validation</p>	<p>Reading specialist validation was timing out validations. Performance adjustment was made to avoid the time out.</p>
<p>STAFF: Manage Position and Area who is changing?</p>	<p>Found the source of issues where Staff Assignments properties were getting changed to the wrong types which effected dynamic questions asked. Implemented a fix so no data from the legacy Oracle system could overwrite</p>

	the WISEstaff system settings.
STAFF Bug: Hotfix All Staff Report - Missing Data	Some staff, assignments and/or contracts were missing from the All Staff Report. Fixed this issue.
WISEid: Build Database for Parent Guardian	Database setup to include new Student Parent Guardian data into the system.
WISEid: Add Parent Guardian and Modify Other Name in File Upload	For 11/23/15 Winter Release toggle on - In Person Upload add Parent Guardian fields and modify existing Alias name fields to be Other Names instead.
WISEid: Hotfix Improve performance with upload updating records	Changes to increase performance of file uploads.
WISEid: Improve performance with numeric fields (Wise ID, birth date) in Lucene search	Changed the way the systems searches for birthdate and gender which decreased search times.
WISEid: Fix issue with upload records "disappearing" when the system updates the status	Fixed system to show upload in Results upload queue if no system modifier user id data because user is new to system.
STAFF: HOTFIX: Hist assg file should have data when no contracts	Fix bug in Copy Forward Assignment file where rows are omitted for any person who had no contract in the selected year.
WISEid: Hotfix Disable copy job from Oracle for Position/Area/PositionArea	Found configuration for certain assignments was getting updated from the Legacy Oracle system. Found data transfer and made sure it will no longer run and cause configuration changes such as assignment questions being asked when they should or shouldn't.
STAFF: HOTFIX Fix Staff List so Staff People with Assignments show up consistently	Assignments that used to be allowed, but are no longer usable and must be modified are allowed into the system with second level validation messages

	to fix them. However, they were being omitted from the UI screen. Fixed this issue.
