

Release Notes for 11/1/2016 WISEid/WISEstaff Production Release (WISEid Core Apps Sprint 121)

| Feature Title | Notes |
|---|--|
| WISEid: Hotfix Bug Fix Match Review Links | On Results screen when you clicked on an individual upload's potential matches it was showing all potential matches district wide for all uploads. We have fixed so it now limits to that uploads potential matches. |
| WISEid STAFF: Hotfix Fix Entity ID deletions bug | Anytime a district uploaded an Entity ID in the Contract upload it was deleting the Entity ID from WISEid. Most would automatically be restored by our auto match process after a few hours. You may have some people still missing Entity IDs that you will have to submit change requests for. |
| WISEid: Add an optional 'Comments' text field to 'Report Duplicates' | Now when reporting duplicates there is a comments box to add details that will be seen by the DPI CSRs reviewing the potential duplicate. |
| WISEid: Hotfix Update 41 Inactive WISEids to active for DWDS plus view change | Found 41 WISEids in uses by districts, but not active in WISEid so we reactivated them. This led to us discovering another 40K of old WSNs with only legacy race/ethnicity which we are now populating in WISEid. |
| WISEid: Issue with staff legacy download - Remove Staff Legacy Upload Section | Removed sections to do original SSN to WISEid process. It was hidden for most agencies unless they had unresolved persons. Now it's removed entirely. |
| WISEid: Last Enrollment Info for WISEid(s) | Clarified that the last enrollment info is actually last enrollment exit transaction. Also, found data issues for newer records we are in process of fixing which was caused by stalled data imports and 40k missing WSN WSLs records with legacy race only.. |

| | |
|---|---|
| <p>WISEid: Legacy Race/Ethnicity UI error</p> | <p>Added errors on both Person and Staff Edit UI for anytime person doesn't have regular race/ethnicity questions answered.</p> |
| <p>STAFF: Add New Validation for new assignment code 96-0891 Instructional/Special Ed Early Childhood</p> | <p>Added new validation for 96-0891, but still has some problems we are fixing in not hotfix pack.</p> |
| <p>STAFF: Contract Upload duplicates records due to merge causes fault</p> | <p>When there are duplicate rows for the same person yet they two different WISEids (one active and one not) it was causing a fault. Now it reports them as duplicate errors and stops them from upload as Errors in Results page.</p> |
| <p>STAFF: Convert Grades Outside School Range Info to Error Messages</p> | <p>When grades are outside of school range this is now an error rather than an info message. You must manually fix. Often this is because the wrong school is chosen which you should correct rather than change grades.</p> |
| <p>STAFF: correct snapshot process for latest highest degree lookup</p> | <p>We were miscoding the highest degree when doing our snapshots and reporting on DPI website.</p> |
| <p>STAFF: Hotfix Assignment Downloads type for Art Classes</p> | <p>In assignment download below the column with "Art Classes" had a typo of "Arts Classes" which we corrected.</p> <p>Downloads include:</p> <ul style="list-style-type: none"> • Results / File Name for assignment uploads (download of original file) • Results / Download assignment uploads • Manage Staff Data/ Copy Forward Files / Download Assignments • Manage Staff Data / Current WISEstaff Data/ Download Current Year Assignments |
| <p>STAFF: hotfix Correct Snapshot for 2015 and 2016 to have correct highest degree lookup</p> | <p>We were miscoding the highest degree when doing our snapshots and reporting on DPI website. We have corrected this and our correcting our highest degree data for 14-15 and 15-16 on the DPI website.</p> |

| | |
|---|---|
| STAFF: Research and resolve issues causing database deadlocks on 10/10/16 | Made fixes to a number of backend errors we were seeing in the system which affected performance and staff validation error generation. |
| STAFF: Update Copy Forward directions dynamic years | Copy Forward sections directions in the UI was hard coded for last year. We have updated to match system active year so it will dynamically update each year. |
| STAFF: Hotfix Contract file upload doesn't update existing contracts | Recent Contract upload where users were updating existing data in system didn't update the data. Recommend repeating and recent Contract uploads. |
