

**Release Notes for 3/9/2015 WISEid Production Release (WISEid Core Apps Sprint 79)**

Feature Title	Notes
STAFF: Historical Person Download Data remove 2010	We removed 2009-10 school year from the Historical Person Download. Reason being to far back for many to get data and race keys changed.
WISEid: Share WISEid EDFI and other states	Shared our work with other states and Ed-Fi to facilitate future integration with vendor products.
WISEid: Bug - Disappearing dynamic questions	Some of the dynamic assignment questions were not showing up correctly if the user made changes to existing assignments.
WISEid: Extract match review screens for student matching	Portions of the WISEid system have been repurposed to facilitate the DPI Data Warehouse groups matching of test results from test vendors to WISEid persons.
WISEid: Search for new exact WISEID missing	Fixed problem where new WISEids and Local Person IDs were not searchable from within the system.
STAFF: BUG: Update Contract Error Screen to display validation errors from SQL	Fixed some Contract upload validation errors were not showing up on the error page.
STAFF: Add degree code to the degree drop-down/ Remove High School Diploma / Check validation	Added the degree code to the drop down for Contract Highest Degree. Removed High School as a valid option for upload and drop down.
STAFF: AUDIT: Step 1 Create ELO Assignment Audit DB storage and business/domain infrastructure	Step 1 of 3 towards the system to check license status of staff for their assignments.
STAFF: Validation- Validate Hiring/Working LEA on Contract and Assignment on File uploads/copy forward	Limit Assignments and Contracts so they must have valid Hiring and Working LEAs. Hiring LEA of uploads

	must match the select Hiring LEA in the application when uploading.
WISEid: Re-factor CopyWSNfromEnterprise SSIS Package	Needed to make sure we have the correct WSLs students imported into the WISEid system.
STAFF: Validation Report Running	Configured the Validation Report so that validation needed not run until user wants it to run by button push. This takes load of the system because with previous method a full validation ran every time a user accessed the Validate Staff Data page.
STAFF: Validation Report Interface Improvements	Added important data fields. Revised the entire look of the Validate Staff Data page. Added column sorts and filters.
STAFF: Validation- NCLB_WORLD_LANG	Validation on the NCLB World Language dynamic question.
STAFF: Validation- NCLB ARTS	Validation on the NCLB Arts dynamic question.
WISEid: IE Formatting Issues	We determined that there issues using versions below IE 9.0.35 with WISEid. However, IE 9.0.35 forward works fine with compatibility mode turned off. We also tested the latest Chrome and Firefox and they worked fine.
STAFF: Validation- Total Number of NCLB Classes	Added a Web UI total field for all the NCLB course count questions. Now users do not to manually add counts to determine total. If count is over 40 an error is presented to the user as that is the limit.
WISEid: BUG - Order of Exact WISEid only match is incorrect	Exact WISEid matches are now at the top of the list as they should be.
STAFF: BUG Historical Person uploader performance	Redesigned the Historical Person

	Uploader for better performance.
STAFF: BUG - Assignment Page Save button not working for some upload records.	When editing some assignments with NCLB course counts the Save button for the UI for assignments did not work. This has been fixed.
