WISEid: Standardized File Upload & Download Template Column Headers	Continuing to standardize Person downloads to match the 7/11/16 upload specs for consistency.
STAFF: Update Entity ID job to filter out spaces and non alphabet characters in names when matching	Improved the matching for the auto job that populates Entity IDs by removing non-alphabet characters and spaces from matching logic between ELO and WISEid.
STAFF: Bug Salary Report not working for Milwaukee School District	Salary Report for Milwaukee Schools and other districts was timing out. Fixed performance issues by adding pagination.
STAFF: Hotfix Bug Staff Position Code Filters is not restricting to in hiring agency positions	Staff List Position Code Filter was not restricted to positions in current hiring

	agencies. So if selected agency had a staff member who also worked in another agency those positions were being included in the filter.
WISEid: Blank Local Person IDs create unnecessary errors	In rare cases where person has a Staff Local Person ID then changed it to a Student Type then deleted it then replaced it with a Staff Local Person ID again - an error would generate for missing Parent Guardian info when it shouldn't and a blank row would exist.
WISEid: hotfix Born Outside US UI validation fires when Public Release toggle is off	Create Person UI - Born Outside US validation fires when it shouldn't be doing this in production. We have fixed this issue.
STAFF: Bug Hotfix All Staff Report by Working LEA not working	Filter by Working LEA on the All Staff Report was broken. We fixed this issue.
STAFF: Bug Assignment changes not saving	When the user was trying to modify an existing assignment to a duplicate assignment the UI was not giving them the error message to indicate that was why the assignment change wouldn't Save. We have restored the error message.
WISEid: Fix parent guardian and WSLS update jobs in Prod	Jobs to pull in more recent WSLS records and also all WSLS Parent Guardians were fixed and data should now be in production.
WISEid: Upload 2016 Public Release - New Data Elements Validation	Upload validations for the 7/11/16 WISEid upload changes.
WISEid: Add new last enrollment data verification fields to Person Upload Review Matches UI	Added to Match Reviews fields for DPI only Last Enrollment Information: Last Student Status, District, School Code - School Name, Last Enrollment Date
WISEid: Import to Student tables WSLS Legacy Race/Ethnicity Records and Data Fields	Import Legacy Race/Ethnicity records into WISEid from WSLS. Also for all records import WSLS Local Student ID 1 & 2 into WISEid.

<p>WISEid: Review Matches UI Screen Adding WSLs Legacy Data Fields (Prereqs: 43751, 44646)</p>	<p>In Resolve Potential Matches screen add Legacy Race/Ethnicity, Local Student Key 1, Local Student Key 2 to potential matches for better matching.</p>
<p>WISEid: 2016 Public Release - UI birth location character set</p>	<p>Implemented same character sets limitations as name fields to Birth County and Birth City in WISEid. Also, implemented for Birth Country, but we are reversing this in next sprint after reconsideration after it was discovered ISO Country names have characters we don't usually use.</p>
<p>WISEstaff: All Staff Report and Salary Report update column title 'Race' to 'Race/Ethnicity'</p>	<p>Standardizing field name to Race/Ethnicity.</p>
<p>STAFF: Contract Salary range limit validation</p>	<p>Contract Salary range limit of \$300,000 was misplaced and is now restored as Staff Validation Error.</p>
<p>WISEid: BUG Edit Person Validations Not All Firing When Edit Local Person ID Type</p>	<p>In the Person Edit UI if you change a Local Person ID Type from Staff to Student your save will be blocked until you first have at least one Parent/Guardian.</p>
