Release Notes for 8/25/2016 WISEid/WISEstaff Production Release (WISEid Core Apps Sprint 115 & 116)

Feature Title	Notes
WISEid: Person upload faulting on Parent Guardian updates with EF toggle on	A bug when trying to update existing parent guardians in the Person Upload caused faults was fixed.
STAFF: Display Error message 4500 for file faults during uploads	A bug when staff FTE was less than 0 Assignment file upload would fault was fixed.
STAFF: Fix Error message 5800 MIA for some position areas	Error #5800 "The Grade levels are not required for this position and area. During the report check off process the value will be deleted." was missing for the following position areas in 2015-16, 83-0000, 80-0000, 52-0000, 51-0000. This has been fixed.
STAFF: Update Validation rule for #6300 to include position-areas for 53-0808.	Error # 6300 "Number of Classes must be greater or equal to the sum of the classes. " now includes assignment 53-0808.
STAFF: #6308 is missing and should be displayed.	Error # 6308 "If you Save changes to this Assignment record in the Assignment UI all invalid grades will be removed when saved. Grades reported are: <insert list of reported grades dynamically>." was missing and has been restored.
STAFF: #6322 does not include 53-0808	Error # 6322 "Sum of all classes can not be larger than 40." now include assignment 53-0808.
STAFF: #6326 and #6327 are missing from the download file	Error #6326 and 6327 were not getting saved to the Contract download file. These indicate if Contract if contract upload gender or race key don't match WISEid person data.
STAFF: Assignment Results Download - update Status	

	When uploading assignments and it updates an existing record (same assignment) the Status column in the Download file now says "Existing Record Updated".
WISEid: Messages and Change Request add WISEid to grid	On Message and Change Request grid we added WISEid on the screen to more easily locate records for districts.
WISEid: Change Request Statewide Queries	DPI now has centralized query to see all outstanding change requests statewide by district.
STAFF: Create home page message when certification hasn't completed	WISEstaff home page message now has messages for initial and final audit if agency is not certified during the open window.
WISEid: Results create Change Request counters and filters	On the upload Results screen we now have a counter for Change Request and click on it will take you to Messages & Change Request screen for that upload.
WISeid: Person Upload Unexpected data and then stuck in pending	Fixed a problem with Person upload where files that had problems with formatting would get to upload queue as pending even though they had never uploaded and were actually stopped from getting to queue.
WISEstaff: Clear non required data is not clearing assignment grades for positions that default	Fixed issue where some of the defaulting of grades was reapplying grades already deleted and should not be there.
WISEid: Milwaukee test file faults	Tested Milwaukee's preliminary Person upload file for problems resolved all but one issue that would make it fault.
WISEid: Person Uploads Born Outside US, city, country and county indicator not being applied sometimes	Fixed issue where some US indicator, birth city, birth country, birth county not getting applied to WISEid person. We also applied missing data to those uploads that had already processed incorrectly.

STAFF: Fix complex messaging logic	Fixed issue with error messages #6331, #6341 and #6380 – These were getting overwritten by 6332. Removed 6331 and 6341 (These are duplicates) and replaced with 6380. 6380 should NOT be replaced with 6332.
STAFF: Updating an assg grades through Upload	Fixed issue where assignment grades were not updating in some case through upload for existing assignments.
WISEid: Make closed agencies function for WISEid	When an agency are no longer open in the active system year DPI lost ability to access the agency in WISEid. This issue has been fixed.
STAFF: Modify User Message 6360 to be by working agency	Message 6360 "Your working agency has no staff with reading specialist assignments. If your agency has no reading specialist acknowledge this warning, otherwise add reading specialist assignment(s)." was being generated by hiring agency rather than working agency as it should. This is fixed 16-17,
STAFF: Bug Assignment Madison uploads with Local Use data causes missing data	Fixed issue where Madison district having specific long data strings in the Local Use data field caused system problems for both Madison and other agencies.
STAFF: Alter Message 4107 text	Changed message 4107 message to "Highest Degree field is only required for a person with one or more assignments with a code of 0 or 1 that did not answer yes to the question if this person is subcontracted. Data will be removed as part of the reporting check off process."
STAFF: Rename Reference to NCLB in Assignment Upload	Renamed NCLB columns in the Assignment Upload to not mention NCLB.

STAFF: Rename References to NCLB in Assignment Downloads	Renamed NCLB columns in the Assignment Download to not mention NCLB.
STAFF: Rename Reference to NCLB in Assignment UI	Renamed NCLB fields in the Assignment UI to not mention NCLB.
STAFF: Remove Reference to NCLB Validation Rules	Changed message for NCLB related validation messages to not mention NCLB.
