Release Notes for 10/19/2021

Improvements to Student Section Associations without Grades WISEdata Export
We've made improvements to the Student Section Associations without Grades WISEdata Export, which you can use to help address student records with [validation error 7169](). These improvements include:

- Now includes only students in grades 9-12.
- Added grade level column.
- Added section program column.

New Validation Rules for World Language Courses
This release includes several new validation rules that help you ensure good data quality for world language courses. These new validation rules include:

- [Warning 7165](): Shows a warning for courses marked as Foreign Language Exploratory Program (FLEX) that include students outside the expected grade range (KG-6).
- [Warning 7166](): Shows a warning for courses marked as Foreign Language in Elementary School (FLES) that include students outside the expected grade range (KG-5).
- [Warning 7167](): Verifies that courses that offer an introduction to multiple world languages are identified as FLEX through the course program association.
- [Warning 7168](): Shows a warning if no students in a school in grades 7-12 are submitted as taking a world language course.

Bug Fixes
Bug fixes in this release include:

- Fixed an issue that could cause users to be unable to pass the Contact Information acknowledgment page.
- Fixed an issue in which the selected school year value would not be retained across different tabs in WISEdata Portal.
- Fixed a timeout issue that could occur on the Vendor Panel error drill down.
