

WISEdata Release Notes 11/15/22 (Sprint 1070)

L2 Validations -

- [Error 6868](#) - Same logic, updated language is now reflected on KBA. The language on this error has been updated for the 2022-23 school year, but the KBA had not been updated to reflect the change.
- [Error 6786](#) - Performance improvements were put in place to make this L2 work efficient.
- **NEW!** [Warning 7459](#) - New for 2022-23 SY, Warning 7459 throws when the learning modality at the school level does not match the learning modality at the student level. The [Learning Modality Type data element](#) refers to whether learning is occurring in remote, hybrid or in-person format. This warning is new for the 2022-23 school year, and is active as of 11/15/2022.

WISE Webpage Updates -

- Due to the large size of the webpage, the [WISEstaff User Guide](#) has been split into separate tutorials for each menu on the WISEstaff application. Pages can all be accessed from the [WISEstaff: Info, Help and User Guide main page](#), and link out to functions on other menu pages.
- [File Layouts and Templates page](#) has been redesigned, but all the content has remained. Icons have been added to distinguish between WISEdata, WISEid and WISEstaff files and templates for upload and download.

WISEdata Updates -

- One CTE course (course matching course code 10019, associated with career pathway type 'Information Technology') was missed when courses were being aligned to SCED 9.0. For the 2023-24 school year, this course will be mapped to CTE (CTE indicator as "Yes") with all associated rigor levels. SCED 9 is active for [2022-23 school year courses](#).

WISEdata Portal (WDP) Updates -

- The Discipline Action Export on WISEdata Portal was performance tested to no longer have an effect on a student's grade level when the discipline date occurs outside of the enrollment dates. This was an error that was occurring on the report for students who were reported with expulsions. This is now resolved.

WISEdash Updates -

- **WISEdash Public – ESSA:** New link to Absenteeism Dashboard

- **WISEdash for Districts – Enrollment - Homeless:** Fix to correct finding homeless details for students in student detail
