WISEdata Release Notes 11/1/22 (Sprint 1069)

L2 Validations -

- Error 7111 is associated with Student Language Instructional Program Association (sLIPA) begin and end dates that occur outside of the assigned school year. Since this error is now active, and widely encompasses sLIPA beginning and end dates, other L2s closely aligned with 7111 have now been turned off:
    - Error 6918 referred to begin dates of a Student Language Instructional Program association (sLIPA) that occurred outside of the assigned school year.
    - Error 6919 referred to end dates of a Student Language Instructional Program association (sLIPA)that occurred outside of the assigned school year.
- A bug surrounding Error 7171 (throwing for schools listing IB courses, even though they are designated IB schools in School Directory) has been resolved.
