WISEdata Release Notes 11/29/22 (Sprint 1071)

L2 Validations -

- [Warning 7459](#) - A bug fix was put in place to repair the Warning. It is functioning properly now.

WISE Webpage Updates -

- The [Snapshot Preparation webpage](#) has been updated. You can now [view recorded webinars and slide decks for Public, Choice, and Charter schools](#) to help you prepare your data. Snapshot takes place on Dec 6, 2022 - just one week away!

WISEdata Portal (WDP) Updates -

- The School Roster Export on WISEdata Portal has had a bug fix, allowing the report to download successfully, again.
- On the Student Detail Screen in WDP, the green banner across the top, indicating the name of the student being viewed, was disappearing. This glitch has been resolved.

WISEdash Updates -

- **WISEdash Public** – Student Engagement – Special Ed Indicators – Indicator 8 Graphic
  - Added new link for Legacy Reports in Graphic Text

- **WISEdash for Districts** – Enrollment – Learning Modality
  - Working to create a new Dashboard that tracks Learning Modality in WISEdash for Districts
