

# WISEdata Release Notes

## 7/25/23 (Sprint 1087)

### WISEdata and Ed-Fi Updates –

Nothing Significant to Report (NSTR)

### WISEdash Updates –

#### **WISEdash Public**

Bug fixes were successfully applied to some broken (older) SPED District Profile Links.

### WISEadmin Portal and Other App Updates –

#### **WISEadmin Data Migration Complete**

The WISEadmin database migration was successful. This will allow the Data Warehouse (DW) Team at DPI to provide dashboards on WISEdash for data collections conducted in WISEadmin Portal.

#### **District Library Plan & District Library Plan Report**

A new collection has been added to WISEadmin for the 2023-24 school year: the District Library Plan. Library plans have been required by administrative code for some time (since 1974), but they are newly being reported through WISEadmin Portal. Visit the [WISEadmin Info, Help and FAQ page > data elements for more details and a listing of all data elements associated with this new collection.](#)

The District Library Plan has two main parts:

LEA Facing Form: This is the portion of the District Library Plan that will be completed by the District Administrative Staff, entered into the WISEadmin Portal.

District Library Plan Report: This report is accessible only to DPI staff with administrative access to WISEadmin Portal. The Report helps the Library Services Team identify the LEAs that have submitted the form.

## WISE Webpage/Documentation Updates – **WISEdata and Data Elements**

- [School Modification Form](#) has been reorganized to provide clearer instruction on when Customers need to use the School Modification Form, open a Help Ticket, or just make the changes in School Directory.
- The [new District Library Plan collection](#) via [WISEadmin](#) has been added to the Data Elements collection.
- [WISEdata Annual Tasks Checklist page](#) has some new updated links, a new block of text for Training, and a few new tips and items peppered in throughout the page.
- Updated Quick Training Videos on [WISEclassroom](#):
  - [Logging in to WISEsecure via WISEhome / WISEsecure Overview](#)
  - [First Time Login: Privacy Agreement Screen](#)
  - [Completing the NEW DSA Set-Up Form for All Administrators](#)
