

**Release Notes for 5/3/2018 WISEid/WISEstaff
Production Release
(Core Apps Team Sprint 159 2-Week Work Cycle)**

Feature Title	Notes
WISEid: Added optional Email Address column to Person upload & download files	Effective 6/11/18, there will be a new upload & download file column to capture emails that are attached to Local Person IDs. These will be used for the new WISEsecure system.
WISEid: Added WISEsecure field to Person Upload	<p>Effective 6/11/18, there will be a new upload file column to capture WISEsecure Roles. It can be used by districts to give users access to various DPI application resources. The WISEsecure Role is connected to the Local Person ID and Email. The allowable values include:</p> <ul style="list-style-type: none"> ● Educational Support, ● Teacher, ● Special Ed Director/Designee, ● Principal/Designee, ● Student, ● None. Null will convert to "None" role. <p>We now require a new WISEid "Agency ID Super Admin" security role to be able update this field.</p>
WISEid: Added No Location Release indicator to Personal Information section	Effective 6/11/18, there will be a new field to protect the location information for staff and students when necessary. The No Location Release data element indicates that a person is part of a privacy program

	<p>protecting the person's location, such as Safe at Home, or that an individual requested a Family Education Rights and Privacy Act (FERPA) block to withhold the release of directory information pursuant to s.118.125(j)(1), Stats. Staff members can also request their work location not be disclosed. The purpose of the indicator is to protect the location (and physical address) of students and/or staff who fear for safety. See the No Location Release data element page for the full definition, reporting guidelines, etc.</p>
<p>WISEid: Parent/Guardian info is now updating correctly.</p>	<p>We fixed issues where Parent Guardian Names were not updating when users modified the suffix.</p>
