

WISEdata Release Notes: 4/10/18

Title	Description/Comments
WDP: Modified Rule 6738	We modified the logic and validation message text for rule 6738 to account for all possible scenarios when the FAPE Responsible school shouldn't be a private school.
WDP: Bug Fix--Rule 6612 throws appropriately now.	Validation rule 6612 wasn't throwing correctly regarding SDD for students turning 10, but this has been resolved.
WDP: KBA links are more visible on Student Details screen.	We made the KBA links for the validation messages more visible on the Student Details screen. Now it's easier to see the KBA link and click it to read the the KBA.
WDP: Student Search results will fit result items to the page size.	Previously users needed to scroll through grids to see all the displayed search results. Now we have allowed search result grids to expand to the result size. This means less scrolling and ease of use.
WDP: Enhancements to Validation Message page	<p>We made several enhancements to the Validation Message page in the WISEdata Portal to improve the user's experience.</p> <ul style="list-style-type: none"> ● We broke the message code and critical icons into separate columns. ● We added Filter and Sort options. ● We also changed the results to allow users to select how many results to display at a time. ● We added a toolbar to the main message screen for expanding, collapsing, and exporting. ● We also added the Alerts panel to the top of the page.
