OMB A-87 ALLOWABLE COSTS – GENERAL OVERVIEW

- PURPOSE
  - Establish principles and standards:
    - Determining costs for federal awards carried out through:
      - Grants,
      - Cost reimbursement contracts and;
      - Other agreements with State and local governments and
        federally-recognized Indian tribal governments
        (governmental units).

Wisconsin Department of Public Instruction
OMB A-87 ALLOWABLE COSTS – GENERAL OVERVIEW

- Federal agencies responsible for administering programs:
  - Issue regulations to implement the provisions of OMB A-87 and its appendices
    - Department of Education
      - Education Department General Administrative Regulations (EDGAR)
      - Title 34, Code of Federal Regulations (CFR), Parts 74-86 and 97-99

OMB UNIFORM GUIDANCE

- Current OMB circulars that apply to State, Local and Indian Tribal governments:
  - OMB Circular A-102 Common rule
  - OMB Circular A-87 Cost Principles
  - OMB Circular A-133 Single Audit

OMB UNIFORM GUIDANCE SUPER CIRCULAR

- Final version issued December 26, 2013
- Effective for state and local governments for years beginning after December 26, 2014
- Streamline and consolidate the format of these with circulars that apply to Institutions of Higher Education, Hospitals and Non-Profit Organizations
- Streamline the language from existing OMB circulars into one document

OMB UNIFORM GUIDANCE

- Reforms to Cost Principles (Circulars A-21, A-87, and A-122)
  - Uniform set of cost principles for all grant recipients
  - Eliminate duplicative language
  - Clarify where there are important substantive policy variances across entities
  - Update language to reflect 21st Century business practices (i.e. electronic submissions of information)
CONSISTENT TREATMENT/EQUITABLE DISTRIBUTION

- OMB Circular A-87
- Attachment A General Principles for Determining Allowable Costs
- Some of the factors that affect allowability of a cost:
  - Necessary and reasonable
  - Allocable
  - Authorized
  - Adequately documented

CONSISTENT TREATMENT/EQUITABLE DISTRIBUTION

To be allowable under Federal awards, costs must:
- Be consistent with policies, regulations, and procedures that apply uniformly to both Federal awards and other activities of the governmental unit.

CONSISTENT TREATMENT/EQUITABLE DISTRIBUTION

- OMB Circular A-87
- To be allowable under Federal awards, costs must:
  - Be accorded consistent treatment. A cost may not be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost.

CONSISTENT TREATMENT/EQUITABLE DISTRIBUTION

- Example:
  - OPEB allocation
  - Supplies
  - Central Printing
  - Software
CONSISTENT TREATMENT/EQUITABLE DISTRIBUTION

• Direct cost
  ○ Can be identified specifically with a particular final cost objective
    ▪ Federal grants fund specific activities related to meeting the goals of the project

• Indirect Cost:
  ○ Incurred for a common or joint purpose benefiting more than one cost objective and not readily assignable
    ▪ Grant activities generate operational costs such as supervision and payroll, but are not directly related to conducting the grant activities
    ▪ Benefit several activities and programs

CONSISTENT TREATMENT/EQUITABLE DISTRIBUTION

• Direct cost
  ○ Typical direct costs chargeable to Federal awards specific to the performance of award:
    ▪ Teacher salary/benefits
    ▪ Cost of instructional materials acquired, consumed, or expended
    ▪ Equipment and other approved capital expenditures
    ▪ Professional development
    ▪ Transportation
    ▪ Contracted services

• Indirect Cost:
  ▪ Typical indirect costs:
    ○ Accounting
    ○ Payroll
    ○ Auditing
    ○ Personnel Management
    ○ Purchasing
    ○ Employee Relations
    ○ Facilities
Indirect Cost

- Indirect rate plan is approved by Federal Government and LEA specific rate is established by DPI
  - Based on audited financial data collected from PI-1505 annual reports
    - High level functions
  - Those rates are posted

Indirect Cost

- LEA specific rate is established by DPI
  - Each LEA has the opportunity to file an adjustment to the rate
    - Certain line items that are pulled into the indirect cost rate calculation may be categorized as direct cost for the calculation, but may not be included as a direct cost for the program. This effectively reduces the indirect rate

Indirect Cost

- LEA specific rate is established by DPI
  - Examples
    - Principal’s Costs – may be allowed as a direct cost but is always pulled into the calculation of the rate as a direct cost. To be sure it is included as indirect an adjustment would need to be made.
    - Other indirect costs that may be categorized as direct costs for the rate calculation (depending on how they are tracked)
      - Bookkeeper
      - IT Staff
      - General supplies
      - Copying/Printing
      - Postage
      - Phone

DIRECT OR INDIRECT

NOT BOTH

      - Reasonable for services rendered
        - Representative of labor market
      - Conforms to established policy of the governmental unit consistently applied to both Federal and non-Federal activities
      - Reasonable to the extent consistent with that paid for similar work in other activities of the governmental unit.
        - Comparable to similar work performed

• **OMB Circular A-87**

  - **Selected Items of Cost**
    - 8. Compensation for personal services
      - Fringe Benefits
        - Compensation in addition to regular salaries and wages:
          - Leave
          - Employee Insurance
          - Pensions
          - Unemployment Benefit Plans

• **OMB Circular A-87**

  - **Compensated Absences (current employee)**
    - Accumulated sick leave
    - Accumulated vacation
    - Allowed if:
      - Established written leave policies
      - Equitably allocated to all related activities
      - Accounting basis selected for costing each type of leave is consistently followed
### Compensated Absences
- **Cash or Accrual**
  - School Districts use a modified accrual basis of accounting
  - Compensated absences are an expenditure when payment is due
  - Accordingly, eligible when payment is due not when absence is earned or accumulated
- **Direct or Indirect depending on time spent on project**

### Lump sum payouts for unused vacation or sick leave when an employee retires or terminates employment
- **Where is this coded?**
  - Function of Individual: Leave Payments
  - Object 296? Other taxable employee benefits
- **When pulling this individual’s salaries and benefits into the grant claim, be sure NOT to include this amount.**
- **Pulled into the rate as a direct cost**
  - Include this amount in indirect cost (adjustment)
POST RETIREMENT HEALTH BENEFITS

- OMB Circular A-87
- Cost of health insurance or health services not included in a pension plan for retirees, spouses, dependents and survivors
  - Pay as you go
    - Function 29200, object 292

- OMB Circular A-87
- Allowable
- Allocated in a consistent manner with the pattern of benefits attributable to the individual(s) or group(s) of employees chargeable to federal award and other activities
  - Function of individual, object 254
**OMB Circular A-133**

- The costs of audits required by, and performed in accordance with, the Single Audit Act, as implemented by Circular A-133, are allowable.
  - The charges may be considered a direct cost or an allocated indirect cost, as determined
- Unallowable cost - The cost of auditing when Federal awards expended are less than $500,000 and is thereby exempted from having a federal single audit under OMB Circular A-133.

**OMB Circular A-87**

- The costs of audits required by, and performed in accordance with, the Single Audit Act, as implemented by Circular A-133, are allowable.
  
- Other audit costs are allowable if included in a cost allocation plan or indirect cost proposal, or if specifically approved by the awarding agency as a direct cost to an award.

**What does the reform say about audit fees charged to a federal award?**

- This language allowing costs of other audits has been in place for years, it is not consistent with the Single Audit Act, and so recommended deleting it.
- Instead, the COFAR recommends language that allows the costs of a financial statement audit that does not currently have a Federal award when included in the indirect cost pool as part of a cost allocation plan or indirect cost proposal.
  
- These audits may be useful to the Federal agency negotiating an indirect cost rate, and the COFAR does not believe them to be in conflict with the Single Audit Act.
AUDIT FEES

○ To be included as indirect
  • Function 230 000 includes audit costs (231 700) which are indirect costs. If they stay in the direct cost base, the indirect rate is lowered Wisconsin Department
